

[Your Name] [Your Contact Information: Phone Number, Email Address] [Location: City, State]

Objective: Motivated and detail-oriented software engineer seeking an entry-level position to apply and enhance my technical skills in software development. Eager to contribute to a dynamic team and gain practical experience in building innovative software solutions.

Education: Bachelor of Science in Computer Science [University Name], [City, State] [Year of Graduation]

Skills:

- Programming Languages: Proficient in Java, C++, Python
- Web Development: HTML, CSS, JavaScript, React
- Database: SQL, MySQL
- Version Control: Git
- Software Development Lifecycle (SDLC)
- Problem-solving and analytical thinking
- Strong communication and teamwork skills

Projects:

1. [Project Title]

- Developed a web-based expense tracker application using React, HTML, CSS, and JavaScript.
- Implemented user authentication, data storage, and data visualization features.
- Collaborated with a team of four to design and implement the application's functionality.
- Presented the project to the faculty and received positive feedback.

2. [Project Title]

- Created a command-line tool in Python for automating data analysis tasks.
- Utilized pandas library for data manipulation and matplotlib for generating visualizations.
- Implemented features to handle large datasets efficiently and improve performance.
- Received recognition from the project supervisor for the tool's effectiveness and usability.

Technical Certifications:

- [Certification Name], [Certifying Organization], [Year]

Additional Information:

- Strong problem-solving abilities with a keen eye for detail.
- Actively participated in coding competitions and hackathons.
- Continuously update skills through online learning platforms and self-study.
